

AES WiFi

Designed to Fit Your Life

With more WiFi devices in your home—and multiple users enjoying them at the same time—fast, reliable home WiFi is essential to an enjoyable online experience. AES WiFi allows you to create a world-class wireless network that's secure and easy to manage. You can monitor usage, manage access and understand what's happening online—all from the AES WiFi app on your smartphone. Get convenience and control with AES WiFi and start using WiFi in your home exactly the way you want!

Why AES WiFi?

CUTTING EDGE

Market-leading range and battery life with WiFi 6—ideal for today's busy (and bandwidth-hungry) households

HIGH PERFORMANCE

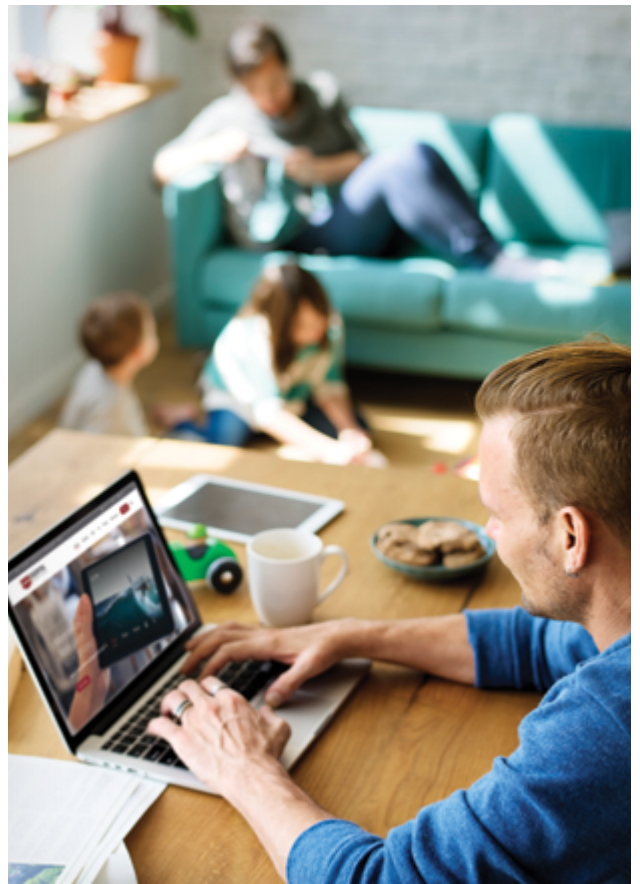

Dual-band support that lets you leverage both the 2.4 GHz and 5 GHz bands

BROAD COVERAGE

Powerful house-wide coverage with AES WiFi routers (either 6 or 12 WiFi antennas) WiFi satellites

FLEXIBLE

Access to a growing selection of applications: parental controls, home network security protections, IoT, Alexa binding, etc.—all giving you more management and control over what can be accessed and what comes into your home network through connected devices

Support When You Need It

With sophisticated remote monitoring, our tech support can perform a wide range of diagnostics to make sure you're getting the best possible service. Many times, we can resolve your issue without sending a technician to your home. When you have AES WiFi, you can count on us to help when you need it.

- WiFi interference
- Connected devices
- Password and setting changes
- Internet errors
- Router reboot
